

Please be advised that I subscribe to XM radio and utilize its traffic and weather channels. I enjoy being able to access instant information on traffic and weather rather than wait thru 30 minutes from broadcast stations. Since this is a service that I PAY for, I don't appreciate the fact that the National Association of Broadcasters is trying to dictate what I listen to. I am respectfully urging that the FCC reject the NAB's petition 04-160. I support XM's ability to provide the kind of programming that I'm looking for.
